About this guide

- All dates and times in this guide use Thailand time (Asia/Bangkok).
- The Thai-language documents (SS-POLICY, SS-CAT-BOTTLES and others) contain the full details; this guide is a summary.
- The website can be switched between Thai and English with the TH/EN button.

1. Company overview

- SaiSai Glassware was founded in 2015 (B.E. 2558) and makes glass bottles for beverages, honey and cosmetics.
- The factory is located in a test industrial estate in Bang Phli, Samut Prakan, Thailand (fictitious address).
- Total production capacity is about 120,000 bottles per day on 3 forming lines.
- The factory is certified to ISO 9001 (since 2018) and GMP for food packaging (since 2020).
- SaiSai sells to business customers (B2B) only; one company account can have several users.
- Each user can only see orders, claims and quotations of their own company.
- All bottles are soda-lime glass (Type III), lead-free and 100% recyclable.
- The glass contains about 30% recycled cullet.

1.1 Who uses our bottles

- Health drinks and juices: B-250 and B-500 in clear or amber.
- Energy drinks and health shots: B-100 and B-150 in amber.
- Honey: B-250 amber is the most recommended bottle; B-500 amber for family size.
- Cosmetics (serum, toner, essential oils): B-100 and B-150.

2. Products

SaiSai makes 4 bottle models in up to 3 colours, 9 products in total. Bottle prices are shown in the ordering system only.

Table 2.1 Product codes

Code	Slug	Model	Size	Colour	MOQ (bottles)
P01	b100-clear	B-100	100 ml	clear	2,400
P02	b100-amber	B-100	100 ml	amber	2,400
P03	b150-clear	B-150	150 ml	clear	1,800
P04	b150-amber	B-150	150 ml	amber	1,800
P05	b250-clear	B-250	250 ml	clear	1,200
P06	b250-amber	B-250	250 ml	amber	1,200
P07	b250-green	B-250	250 ml	green	1,200
P08	b500-clear	B-500	500 ml	clear	800
P09	b500-amber	B-500	500 ml	amber	800

Table 2.2 Colours by model

Model	Colour		
	clear	amber	green[1]
B-100	yes	yes	no
B-150	yes	yes	no
B-250	yes	yes	yes
B-500	yes	yes	no

[1] Only the B-250 is available in green.

2.1 Key dimensions

Table 2.3 Dimensions (nominal)

Model	Outside (mm)		Neck		Weight (g)
	Height	Diameter	Size (mm)	Finish	
B-100	98	45	28	PP 28 mm screw	95
B-150	118	52	28	PP 28 mm screw	130
B-250	150	60	38	PP 38 mm screw	190
B-500	205	75	43	Lug 43 mm	320

Full specifications, tolerances and compatible caps are in SS-CAT-BOTTLES (Thai).

- The B-500 uses a 43 mm lug finish for metal twist caps (1/4 turn).
- The B-100 and B-150 share the same 28 mm neck, so they can use the same caps.
- SaiSai does not sell caps; customers source caps that match the neck finish.
- Amber glass blocks more than 90% of UV light between 300 and 400 nm.
- All bottles withstand a thermal shock of at least 42 °C.
- Hot filling is allowed up to 85 °C if bottles are pre-heated to at least 45 °C.

3. Ordering and MOQ

Table 3.1 Minimum order quantity

Model	MOQ (bottles)	Order step
B-100	2,400	100
B-150	1,800	100
B-250	1,200	100
B-500	800	100

- Quantities must be in steps of 100 bottles.
- The maximum is 200,000 bottles per order; larger orders must be arranged with sales.
- An identical order from the same company within 10 minutes is treated as a duplicate.

3.1 Order status (6 steps)

1. Step 1 Order received
2. Step 2 Spec confirmation (logo artwork is approved here)
3. Step 3 In production (prepaid orders must be paid before this step)
4. Step 4 Quality inspection (AQL sampling)
5. Step 5 Ready to ship
6. Step 6 Shipped (the 7-day claim period starts)

- An order moves forward one step at a time and cannot skip steps.

4. Logo printing

- Logos are printed by ceramic screen printing and fired at about 600 °C, so the print becomes part of the glass.
- Logo printing requires at least 5,000 bottles per order.
- The logo printing fee is THB 0.80 per bottle for every model and colour.
- The flat fee covers up to 2 positions (front and back) with up to 2 colours per position.
- Quantity discounts apply to the bottle amount only, not to logo printing or delivery.
- Accepted artwork files are AI (CS6 or later), vector PDF, SVG and EPS; JPG and PNG are reference only.
- Text must be converted to outlines and artwork must be at 1:1 scale.
- The minimum line width is 0.3 mm and the minimum text height is 1.5 mm.
- Artwork is approved at step 2 (Spec confirmation); production cannot start before approval.
- A digital proof is sent within 2 working days; 2 revisions are free.
- 8 standard ceramic ink colours are available; gold and metallic inks are not offered.

Table 4.1 Maximum print area (width × height, mm)

Model	Print area		From base (mm)
	Front	Back	
B-100	40 × 30	40 × 30	15
B-150	45 × 40	45 × 35	18
B-250	60 × 55	60 × 45	20
B-500	80 × 90	80 × 70	25

5. Lead time and delivery

- The lead time is 14 days: the pickup date must be at least today + 14 days.
- The earliest pickup date skips factory holidays.
- Logo printing does not extend the 14-day lead time if artwork is approved by day 3.
- Customers can change the pickup date themselves only while the order is at step 1 or 2.

Table 5.1 Factory holidays 2026

Date	Holiday
23 Oct 2026	Chulalongkorn Day
5 Dec 2026	National Father's Day
31 Dec 2026	New Year's Eve

Table 5.2 Delivery charges (before VAT)

Distance	Charge
0–50 km	free
51–300 km	THB 1,500 per trip · trips = bottles ÷ 20,000, rounded up
over 300 km	contact sales (no online price or quotation)

- Example: 25,000 bottles delivered 160 km away need 2 trips, so delivery costs THB 3,000.
- Customers can collect at the factory Monday–Saturday, 08:30–16:30, free of delivery charge (enter 0 km).

6. Payment, credit and quotations

- Companies with fewer than 3 shipped orders must pay in full before production (prepay).
- After 3 shipped orders, a company gets 30-day credit automatically.
- The credit due date is the shipping date + 30 calendar days.
- VAT 7% is added to every order and rounded half-up to 2 decimals.
- Bank transfer: SaiSai Glassware Co., Ltd. · Test Bank · account 000-0-00000-0.
- Cash and personal cheques are not accepted.

6.1 Quotations

- Logged-in customers can request a quotation from the order page or from the chatbot Nong Sai.
- Quotation numbers look like QT-0001.
- A quotation is valid for 7 days from the issue date.
- A quotation keeps all price lines as of the issue date and can be converted to an order once.
- When converting, all rules are checked again (14-day lead time, holidays, duplicates).
- Expired quotations cannot be converted; please request a new one.

6.2 Price lines

- Order totals are calculated in this order: bottles − discount + logo + delivery = subtotal, then + VAT 7% = total.

7. Free samples and claims

- Free samples: up to 3 bottles per model per company per month.
- Samples cost THB 0.00 and the quota resets on the first day of each calendar month.
- The sample quota counts by model, not by colour.
- Samples are sent by parcel within 5 working days and are not printed with logos.

7.1 Claims

- Claims must be reported within 7 days of the shipping date (shipping day = day 0).
- Example: shipped on 12 Oct 2026, claims are accepted until 19 Oct 2026.
- A claim needs the lot number in the format LOT- followed by 6 digits, e.g. LOT-261001.
- The lot number is printed on the carton side label and on the delivery note, not on the bottle.
- Attach 1 to 5 photos, JPG or PNG, each no larger than 5 MB.
- Claim status flow: received → reviewing → approved or rejected.
- A rejection always includes a reason of 1–1,000 characters.
- Damage caused by hot filling above the limit is not covered.
- Approved claims receive replacement bottles in the next delivery or a credit note.

8. Export documents

Table 8.1 Documents for export customers

Document	Provided by SaiSai	
	Provided	Notes
Commercial invoice	Yes	English · issued on shipping
Packing list	Yes	Cartons, pallets and gross weights
Certificate of Analysis (CoA)	On request	Per lot · within 2 working days
Food-contact test certificate	On request	FC-2026-014 · valid to 31 Jan 2027
Certificate of origin	No	Applied for by the exporter
Export customs clearance	No	Handled by the customer's forwarder

- SaiSai does not ship overseas; export customers collect at the factory or use a domestic forwarder warehouse.
- Laem Chabang port is about 95 km from the factory, so delivery there costs THB 1,500 per trip.
- Pallets are 120 × 100 cm wooden pallets; no deposit and no return needed.
- Pallets can be arranged for 20-foot containers if requested at spec confirmation.

Table 8.2 Packing summary

Model	Per carton	Per pallet	
		Cartons	Bottles
B-100	96	60	5,760
B-150	72	60	4,320
B-250	48	50	2,400
B-500	24	48	1,152

9. Quick FAQ and contact

- Q: What is the lead time? · A: 14 days from today, skipping factory holidays.
- Q: Can I order 2,000 B-100 bottles? · A: No, the MOQ for the B-100 is 2,400.
- Q: Can I get a green B-500? · A: No, green is available for the B-250 only.
- Q: Can I print a logo on 3,000 bottles? · A: No, logo printing needs at least 5,000 bottles.
- Q: How many free samples can I get? · A: 3 per model per month.
- Q: How long do I have to report broken bottles? · A: 7 days from shipping.
- Q: Do you sell carbonated-drink bottles? · A: No, our bottles are not designed for carbonated drinks.
- Q: Are prices listed in this guide? · A: No, see the ordering system or request a quotation.
